Environmental policy

ICU Scandinavia AB shall work to minimize its environmental impact as far as ecologically justified, technically possible and economically reasonable.

We do this by:

- Minimizing our emissions caused by transports per Swedish krona.
- Sorting our waste, choosing environmentally friendly packaging materials, and prevent pollution as far as possible.
- Choosing and developing environmentally friendly working methods, products and systems to protect the environment, as far as possible.
- Increasing our knowledge and our commitment to environmental issues that affect our business.
- Identifying, interpreting, and complying with the environmental laws and other environmental requirements that affect our business.

Our environmental work should be constantly improved through continuously revised environmental objectives and action programs.

This environmental policy shall be reviewed each time a new environmental assessment is carried out.

Sten Drakenberg, CEO
